Projects

Merchant Payment Form Redesign

A streamlined merchant payment experience for AuroPay — simplified workflows, reduced errors, and faster transactions.

2. Healthcare Claims Processing System

Simplifying complex and manual claim follow-ups to enable faster processing and higher closure rates.

3. Personal Portfolio Website

A collection of my work focused on creating intuitive, user-friendly solutions through design thinking and problem-solving.

SKILLS

- Figma and Framer
- Heuristic Testing
- Secondary Research
- Competitive Analysis
- Usability Testing
- Design System

TRAINING & CERTIFICATIONS

- Network Management and Web Development
- Software Reliability

PARTICIPATIONS

Workshop on Cloud Computing.

Workshop on Cyber Security.

Seminar on Software Reliability.

Workshop on C Language

HOBBIES

Watching old movies
